## Mrs. Ferguson Becomes Governor In Colorful Inauguration

### UNITED WORKERS MAKE REPLY TO CITIZENS ON LABOR COMPLAINT

The purpose of the United Charities is to supply help only when help is actually needed. If help is given under any other circumstances, the United Workers would be embezzling funds of the public spirited and charity minded citizens.

So the United Workers have held off giving help until it was actually needed. Meanwhile a number of citizens have taken exception to this delay and because they have not received labor, they have stopped paying pledges. It is wise to have men work for their daily bread, and the local charity organization is asking Cameron citizens who have donated to the fund, to use these laborers when they are eligible up until Jan. 16th. No unemployed men have applied for work who were eligible to work, so it has been impossible to supply laborers until they are available and eligible, and United Charities refuses to send any man to work for any citizen unless that man is eligible to work, and the reason the local organization has not furnished laborers thus far is because there were no eligibles.

The United Workers corps again plead for patience and cooperation on this matter.

Assisting the United Workers in the distribution of labor, the Lions Club of Cameron will work from the office of Lion President O. C. Acree at the First Presbyterian church beginning Wednesday, January 18th. You are urged to call for labor at least two days in advance by telephoning 733 between the hours of 8 and 9 o'clock daily. A laborer may be used one or two days but the same laborer may not be used more than two days, the reason being as follows: A group of men work for the R. F. C. on Mondays and Tuesdays. They are allowed to work on Wednesday and Thursdays for United Workers (Continued on Page 5)

Friends here are elated over prospects of his election. Will Rogers recently commented on the race and expressed his admiration for "Ty" Cobb, his friend.

### INTEREST GROWS IN RICHEY REVIVAL HERE

Rev. A. J. Richey, nationally known evangelist from Houston, has been conducting a revival campaign at the Cameron Gospel Tabernacle, across from the City Park, and the building has been practically full every night since the revival started last Saturday night. A number of people have stepped forward for prayer and hearts have been touched by the messages delivered by the evangelist.

In the past few years the Rev. Richey has had a great deal of success in the evangelistic field, holding large revivals in many cities throughout the United States, including Jacksonville and Tampa, Florida, Los Angeles and Long Beach, California, and many others. In Texas he has confined his meetings to larger cities, Beaumont, Wichita Falls, Tyler, Palestine, Houston, and immediately upon closing the revival in Cameron on Sunday night he is scheduled for a return to East Texas.

Following are the messages upon which the evangelist will speak the remaining nights he will be here. Tuesday night "The Last Hour of the Gentile Rule." A Second Coming Message Friday night "El Shaddai, the All Sufficient." Saturday night "The Woman on the Scarlet Beast." Sunday morning "The Gift of the Holy Spirit." Sunday afternoon "Is the Messiah at Hand." The closing message of the revival will be delivered Sunday night "Lights Out."

### DR. W. R. NEWTON IS NAMED HEALTH OFFICER

### ST. MONICA'S PARISH REPORTS PROGRESS IS MADE IN YEAR 1932

On last Sunday a parish meeting for St. Monica's church was held in Knights of Columbus Hall. The pastor, Rev. Geo. Apel, gave to the meeting the annual statement of the parish and much progress is indicated by the statement of the finances for the year.

The total income of the church was \$4021.50 and the total expenditures were \$3758.31.

Included in the expenditures was the payment on a note of \$1500 with interest in the sum of \$100. And on an additional note there was paid \$250 in interest. The salary of the pastor was only \$1000. The remaining expenditures were for miscellaneous items.

After reading the statement Rev. Father Apel made a heartfelt talk to the parish asking their faithful co-operation for the New Year and thanked the members most kind and affectionately for their faith and co-operation in 1932.

A most excellent record is disclosed by the statement of Father Apel, which shows that the parish debt on the new church has been reduced to \$5500 and the achievements is considered remarkable progress. St. Monica's is one of the most beautiful and impressive church buildings in Central Texas and was constructed under the direction of Father Apel.

### McKinney Baker Here To Establish Plant

Prospects were good Thursday morning for the establishment of a bakery in Cameron. Mr. Knott and associate of McKinney were in Cameron to confer with H. E. Garner, secretary of the Mosonic lodge with the view of renting the building formerly occupied by Stein's bakery.

Cameron people bought out of town bread instead of local products to such an extent that bakeries here were forced to close. Cameron had two bakeries and neither of them are now in operation.

The city should manifest interest at this time and encourage the industry and patronize it after it is established, it was pointed out by those in close touch with developments.

On September 17, 1931 he was convicted of forgery and passing and was given two years with a suspended sentence provided he should not be convicted again within the two years. ## "Ma and Pa" Cheered by Thousands on Tuesday

Austin, Texas, Jan. 17—Mrs. Miriam A. Ferguson was inaugurated governor of Texas today for the second time, after a lapse of six years.

When she served in 1925-26, she was one of the two women chief executives in the United States. Mrs. Nellie Tayloe Ross of Wyoming being the other. Now she stands as the nation's only feminine head of a state.

In a brief inaugural address, after she took the ancient constitutional oath, affirming that she never had "fought a duel with deadly weapons, within the state or out of it, nor have I sent or accepted a challenge to fight a duel with deadly weapons, nor have I acted as second in carrying a challenge, or aided or advised, or assisted any person thus offending," she asked the hearty cooperation of the legislature during her tenure.

### She Warns of Burdens

She warned that "the burdens of government are falling heavily on the masses."

"Reduction of taxes must come and come quickly or the government will fall and fall quickly," the woman governor said.

Mrs. Ferguson rested her left hand upon an ancient Bible, used by all her predecessors since Texas became a state, held her right hand upraised and repeated the oath after the words of Chief Justice C. M. Cureton, of the state supreme court,

who administered the oath.

The inaugural took place in the hall of the house of representatives, where the woman governor was first sworn in in 1925. She had won her way back to the governorship of Texas after three stringent campaigns since she first held the office, having been initially defeated for a second term in 1927 by Dan Moody, attorney general in her first administration.

### Sterling Not at Scene

The outgoing governor, R. S. Sterling, against whom Mrs. Ferguson campaigned unsuccessfully for chief executive in 1930 and victoriously last year, took no part in the induction. He remained in his office until noon, when he went his way into a stream of "private citizen." None of the other living ex-governors, except Mrs. Ferguson's husband, James E. Ferguson, were on the rostrum during the inauguration. They are Dan Moody, Pat M. Neff of Waco, Oscar B. Colquitt of Dallas and W. P. Hobby of Houston.

This is the first time in Texas' long, spotted political history that a retiring chief executive did not appear at the induction of his successor.

### Old Enmities Not Forgotten

Enmities stirred between Sterling and the Fergusons two years ago and between Moody and the Fergusons six years ago were responsible for Sterling's declination to take part in the ceremonies.

Thousands of men, women and children who were not able to gain entrance to the floor of the house, reserved for members of the legislature and their families, or to the galleries, listened in the rotundas and offices adjacent to the hall where the ceremonies took place.

Bands had been playing in the streets of the capital since morning.

By "Ma's" side, as six years ago, stood her teaming husband, former Governor James E. ("Pa") Ferguson, barred by a senate impeachment court from ever again holding a state office of trust, after his removal from the executiveship in 1917. For the second time, however, he has been able to beat his political opponents with his wife.

### Her Family Is There

The 57 year old woman also was surrounded by other members of her family. Mrs. George Nallie and Mrs. Stuart Watt—her daughters—their husbands and her only grandson, George Nalle, Jr.

After Mrs. Ferguson took the oath of office, Lieutenant-Governor Edgar Witt of Waco was inaugurated for a second term to his office.

## MILAM COUNTY PLACED WITH FALLS IN NEWLY PROPOSED DISTRICT

Milam County is placed with Falls county in the newly proposed Judicial District recommended by the Legislative Committee made public Monday.

The redistribution bill will be passed at this session of the legislature and in many instances District Courts have been abolished. The program would abolish the 20th District of which Judge W. G. Gillis is judge and create a new district with Falls and Milam counties combined.

The enlargement of the district together with a cut in the salary of the judge was advocated by Judge Gillis in the Primary campaign in which he was nominated by the Democrats. Recently a letter was mailed by Judge Gillis asking expressions on the proposed new district. The Judge did not suggest a district but merely asked the advice of others on a number of proposed changes, among them being the addition of Burleson or Lee Counties.

The committee recommendation is unofficial and is of course subject to change when the bill is presented for enactment by the legislature.

## CONGRESSMEN SEEN AS HARD WORKERS

Banker Tells of Labor Put in by Members of Congress on Mass of Technical Measures

OUTLINING legislative procedure, Robert V. Fleming, President Riggs National Bank, Washington, D. C., gave the recent convention of the American Bankers Association a description of the difficulties and problems confronting the law-makers. Mr. Fleming said in part:

"The most important part of organization of the two branches of congress is election of standing committees. There are 34 standing committees in the Senate and 46 in the House. These are the workshops of Congress and the real work of law-making is done in Committees.

"The task of legislating for 124,000,000 people is a tremendous one. Of recent years approximately 20,000 bills are introduced annually in the two Houses. Only a small percentage become law, but they must be weighed in committee, adopted or rejected, perhaps amended, reported out, and then considered on the floor.

"Lawmaking involves about 99% of hard and unspectacular work and about 1% of oratory. Few tasks appear so easy and are so difficult as enactment of sound and satisfactory legislation. Few individuals in any line of activity work harder or longer hours than the chairmen of the important committees during a session. I have great sympathy for the members of Congress whose constituents expect undivided attention to every piece of legislation in which they may be interested. From my personal observation, they earnestly and conscientiously endeavor to do all that is possible.

### Public Hearings

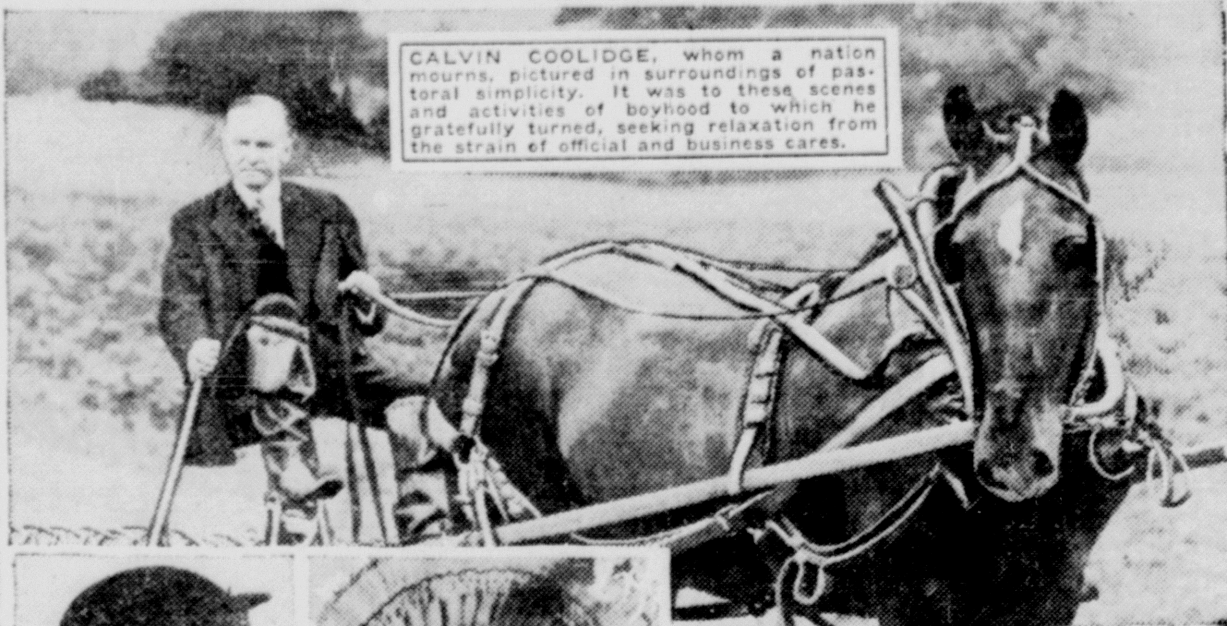

"When a bill is introduced, referred to committee and printed, the next step, if it is a measure of considerable importance, is to conduct a public hearing. The committee makes an effort to listen to anyone who cares to be heard either for or against a measure, although witnesses are frequently limited as to time. Members of the Cabinet and other officials of the administrative departments of the Government usually testify on measures in which they are interested and furnish the committee information in executive session or otherwise.

"Due to pressure of work and the fact that it is impossible for members of Congress to be technical experts on every subject of legislation, the committees are inclined to give consideration to the merits of arguments presented in testimony and the recommendations of the Cabinet and other officials. It is therefore highly desirable, both from the standpoint of Congress as well as those affected by proposed legislation, that the latter have an opportunity to discuss frankly the effects of such legislation."

Dr. and Mrs. A. S. Epperson visited Mr. and Mrs. D. W. Harwell at Eddy last week.

## NEGRO FARMERS HOLD MEAT DEMONSTRATION

A demonstration in cutting and curing meat was given in Cox's providence community Friday, January 13, to 18 Negro farmers and farm wives of the community. 800 pounds of pork was cut and packed for curing, 100 pounds of sausage and 36 gallons was made, and 350 Lbs. of beef was corned. The meat belonged to Abe Walker at whose home the demonstration was given, and those attending assisted in doing the work, under the direction of W. H. Phillips the Negro Farm Agent.

Demonstrations in meat cutting is being given in various parts of the county, in order that the right method of meat cutting reach every farm home in the county.

### Formula for Corning Beef.

For every 100 pounds of meat use 8 pounds of salt, 2 1-2 ounces of saltpetre, 4 pounds of sugar and 2 ounces baking soda. Mix the dry ingredients in the water and after the meat has been packed in a clean barrel pour the mixture over the meat. If well water is used that is full of mineral, it should be boiled and allowed to cool over night. Use a board or the head out of a barrel weighted down to keep the meat under the brine. Do not use an iron weight. A stone is better. In 30 or 40 days the meat will be ready for use, that is, if properly corned. It can be used sooner than this if desired.

**BETHEL MIDDLETON**

On January 8th, there passed from the scene of this life one who just a few years ago was widely and favorably known in Cameron, Bethel Middleton, a devoted Christian girl, one who was loyal to the thing that merited loyalty. Bethel graduated from Yoe High school with the graduating class of 1928. From there she entered the Teacher's State Normal at San Marcos in 1929, but soon after entering college her health began failing. In a short time it was recognized that she had tuberculosis. Her parents, Mr. and Mrs. Joe Middleton, moved to San Angelo with her, and for three years they fought valiantly, but alas, it was a losing battle, and on January 8th in the Baptist Sanitarium at El Paso, Bethel left the walks of this life to enter into life more abundant.

She was a Christian and a member at the First Baptist church of Cameron. She was loyal, faithful and active in the church. She was a

pleasing personality, beautiful in character, winsome in ways. May God bless her memory, and may others live as she did, with an aim to emulate the life of the Master.  
E. S. Hutcherson.

**MRS. JULE COFFIELD.**

Many friends in Cameron will regret the death of Mrs. Jule Coffield, of Rockdale, who died Tuesday morning at her home after two days' illness.

Mrs. Coffield was the widow of the late Jule F. Coffield who was a prominent business man, a hardware merchant in that city for a number of years.

Mrs. Coffield was prominent in church, social and civic circles for a number of years and has often visited in Cameron.

The funeral was held at the home Wednesday morning at 10 o'clock. Interment was made in Rockdale. She is survived by two children, J. F. Coffield and Mrs. P. H. Perry and

two grandsons, Preston Perry and Tom Coffield of Rockdale.

Miss Katherine Hargrove, Frank Stewart, Sam Hefley and Gene Smith were among those to attend the inauguration in Austin Monday.

## 3,000,000 FAMILIES AIDED BY RED CROSS

**Distress in All Areas Met by  
Giving Food, Clothing  
and Other Help.**

More than 3,000,000 families throughout the nation were given relief of various types by the American Red Cross in the past winter, to aid them in their distress caused by unemployment, disaster or other misfortune.

A major relief task, due to unemployment and other unusual conditions in the bituminous mining counties in twenty states, was met by the Red Cross chapters alone, or participating with other agencies. In these 143 counties, the Red Cross aided 90,000 families through giving groceries, school lunches, clothing, flour and other necessities to combat privation.

Flour, milled from government wheat turned over to the Red Cross by Congress, was given to 15,000,000 persons in the period from March 8 to June 30, the close of the fiscal year. Flour will continue to be given through the winter of 1932-33, and Red Cross chapters also will give cotton clothing, made from government cotton turned over to the Red Cross for distribution.

"The Red Cross faces the busiest winter since the days of the World War," Chairman John Barton Payne said. "It is organized in virtually every one of the 3,072 counties in the United States, and will co-operate with all agencies to meet distress wherever found. The flour has proved of great benefit, and the cotton clothing will be given wide distribution."

While carrying on nation-wide these unemployment and other relief measures, the Red Cross also was engaged in its regular peacetime activities in public health nursing, service to ex-service men and their families, teaching home hygiene, life saving and first aid. The Junior Red Cross, composed of almost 7,000,000 school children, also rallied to the support of the society's relief efforts, and the children aided others of their age in practical ways, formed sewing and food canning classes, and were of great assistance in chapter relief work.

While the wheat and cotton were given by the U. S. Government, no money was provided to pay for the necessary work entailed. The Red Cross will meet this expense of almost \$500,000 from its treasury. Citizens can aid by joining as members of the local Red Cross chapter during the roll call from Armistice Day to Thanksgiving Day.

## United Workers

(Continued from page 1)

ed Charities. Another group of men work for the R. F. C. on Wednesday and Thursday and work for the United Charities on Mondays and Tuesdays. Now a laborer who comes to you on Monday can work two days and goes back R. F. C. and work on Wednesday. A laborer who comes to you on Tuesday can work on Tuesday only since he goes to work for the R. F. C. again on Wednesday.

So please bear in mind that if you want a laborer two days in succession be sure to engage him for Monday and Tuesday or Wednesday and Thursday. No workers will be sent out on Saturday. Please remember that the Lions Club committee cannot guarantee a laborer unless that laborer has been applied for at least two days in advance. You are urged not to request particular workers since every eligible man is entitled to work at least two days.

In case of rain, please give the ticket back to the laborer signed by you and the number of hours work by the laborer and he will present it to Mrs. Cammer for adjustment.

If there is any question to be asked or any explanation desired you will please call O. C. Acree at 733 or Mrs. Cammer at 333. The Lions committee will do everything possible to give service, but inasmuch as this is volunteer work and irregular at times, some error may occur or some misunderstanding arise, and in such case the committee will be happy to adjust any error.

Miss Jolly Blanche Pitts, teacher of English at Yoe High school, left early Wednesday morning in answer to a message received stating that her father was dangerously ill at his home in Dallas. Shortly after she left a telegram came telling of his passing away. Mr. Pitts has been in declining health for some time, owing to his age, about 87 years. The remains were taken to Hillsboro where they were interred. Many friends in Cameron sympathize with Miss Pitts in her bereavement.

Dr. and Mrs. A. S. Epperson visited Mr. and Mrs. D. W. Harwell at Eddy last week.

## Hints for the Household

### HOUSEHOLD HINTS

#### To Remove Ice From Sidewalks.

Winter is a slippery time and sometimes it is most difficult to remove ice from sidewalks and steps. Sprinkle steps or walks with salt. Then the ice will quickly melt and slush can be swept away. Sometimes it is best to wash steps with a solution of hot water and salt. It will not freeze if there is enough salt in the water.

#### How to Clean a Canton Crepe Dress

Sponge dress all over with warm water. When partly dry press the dress on the wrongside. When finished the spots have generally disappeared.

### COOKING HINTS

#### To Thicken Soup

Sprinkle a handful of oatmeal into kettle of soup while cooking. This will thicken soup and add another item of nourishment to it.

#### Rice Croquettes With Cheese Sauce

Rice.  
Cold water.  
1 cup of milk.  
1 cup of water.

Method: Cover 1-2 cup of rice with cold water. Bring to a boil. Boil 5 minutes. Drain and rinse in cold water. Then take 1 cup of milk and 1 cup of water, little salt and rice and cook until rice is tender and liquid is absorbed. Remove from fire add 1 tablespoon melted butter and 1 egg, well beaten. Season with salt, pepper, onion juice and green

pepper if you have it.

When cool form into croquettes and roll in either bread or cracker crumbs. Fry these. When you serve, pour over cheese sauce made as follows:

1 cup of thick cream sauce mixed with 4 tablespoons of grated American cheese.

### Divinity Candy

2 cups of sugar.  
1-2 cup of corn syrup.  
3 cups of water.  
3 egg whites.

Method: Cook together sugar, syrup and water until it forms a soft ball when dropped in cold water. Beat egg whites stiff. Pour the boiled mixture very slowly into the stiffly beaten egg whites. Beat until creamy and candy starts to stiffen. Just before it is finished, add chopped nuts. Pour onto greased platter. Cut when cool.

### BAKING HINTS

#### Ice Cream Pie

We all have always loved a "Baked Alaska." But it has seemed quite an effort to make it at home. This ice cream pie is the same principal but being on a smaller scale it seems more simple.

Method: Bake your pie shell ahead of time. Have ice cream, any desired flavor in ice box. Have oven hot. Just before you are ready to serve, beat 3 egg whites stiff, add 3 tablespoons of powdered sugar. When nearly ready to serve, place a white paper

on a board and the pie shell on the paper. Fill shell with ice cream. Cover with meringue. Be sure there is no gap between pie crust and meringue. Then place in oven to brown. Serve immediately.

The result will be charming as to all appearances the pie will appear as an ordinary pie and the ice cream filling will be both a surprise and delight.

### Excellent Corn Bread

2 eggs.  
1-2 cup of sugar.  
1 cup of sour milk.  
1 large tablespoon of butter.  
Little salt.  
1 cup of corn meal.  
1 cup of flour.  
1 teaspoon of soda.

Method: Melt butter in pan while oven is heating. Beat eggs. Add sugar and salt. Then add flour and corn meal. Dissolve soda in sour milk. Mix well with dry ingredients. Add butter. Mix again and pour onto greased pan and bake. Delicious for breakfast, lunch or supper.

#### AMOUNT OF SLEEP REQUIRED

By DR. WILLIAM J. SCHOLLES

When but little is known about a subject, that subject is a good one for speculation. Sleep is such a subject. Hence, it furnishes good material for the making of theories both reasonable and wild.

An idea more or less frequently advanced nowadays is that we sleep too much. With the demands of modern life, especially in the more populous places, there is plenty of temptation to give this idea a practical application. By cutting down the amount of sleep more time can be found for the desired amount of social and other activity. The possibility that reduction of the number of hours of sleep may produce ill-effects on the health often seems to be overlooked.

In this connection, an article by Dr. William Browning, published last fall in the Journal of the American Medical Association, may be of interest. Dr. Browning made careful investigations of the factors other than infection which may have had a part in the production of a number of cases of epidemic encephalitis which he studied.

#### Due To Infection.

Epidemic encephalitis is the disease commonly known as sleeping sickness. It is generally regarded as due to common infection ETATA as due to some infection. It is closely associated with certain of the infectious diseases, especially influenza.

Loss of sleep seems to be a constant factor working to lower the resistance and make infection possible. While the observations in this instance were made on cases of epidemic encephalitis, it is conceivable that loss of sleep may just as readily lower resistance to other infections. A possible ill-effect of insufficient rest has here been pointed out.

The generally accepted teaching of hygienists has been that adults require an average of at least eight hours of rest daily. There may be individuals who can retain their health indefinitely with less than this amount of rest. But until careful scientific investigations demonstrate that hygienic authorities are wrong in teaching that we need eight hours sleep daily, it is wise to stick to the old rule.

## Your Electric LIGHT Calendar

Through the year with electric light is just as simple as day and night. When the days are short, the nights are long and you use more electric lights. Then when the days are long and the nights short, you use electric lights for fewer hours.

If you will note the figures in the electric light calendar, they will tell you the average number of hours during which electric lights are used during that particular month.

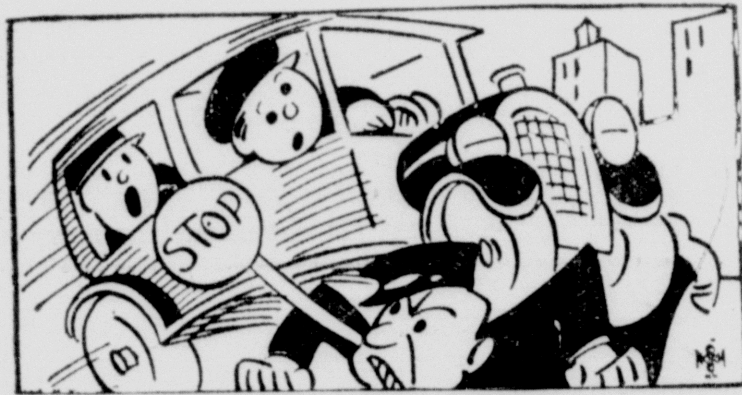

If your electric bill seems higher now you will understand why, if you but stop to think that the average family uses electric light almost three times longer during the winter than summer. The mellow light of the living room has a mighty strong appeal when the day's work is done . . . and that means extra service from the electric lights.

The electric light calendar quickly explains why your electric bill is higher for the winter months than it is for those of summer. But the small increase at this season is negligible if compared to the comfort and cheer which electricity brings to the long winter evenings at home.

Today on the lower residential rates now in effect the average customer can buy 33 per cent more home electric service than in 1928 for the same amount of money. Electricity IS cheaper and far more serviceable to you.
